Company Profile

Ours is a Quality conscious unit established under able leadership of Mr. Bhausaheb M. Kashid in 1976. We have developed **BRISK** Brand Micro Switches, Limit Switches, Foot Switches, Switch Mode Power Supply (SMPS) and Safety Light Curtains.

The **Micro Switches** are single pole change over snap action switches featuring exceptional repeat accuracy with trident spring mechanism made of BeCu and silver contacts. Precision design and superior material ensures satisfactory services in a wide variety of applications in domestic, office, laboratory or workshop equipment and industrial environment.

The **Limit Switches** with positive opening NC contact are developed with size of compact and lightweight designed for trouble free operation even in highly contaminated atmosphere and vibration conditions. Robust construction, high quality corrosion resistant materials, precision finishing and the high protection class IP67 ensure reliable performance.

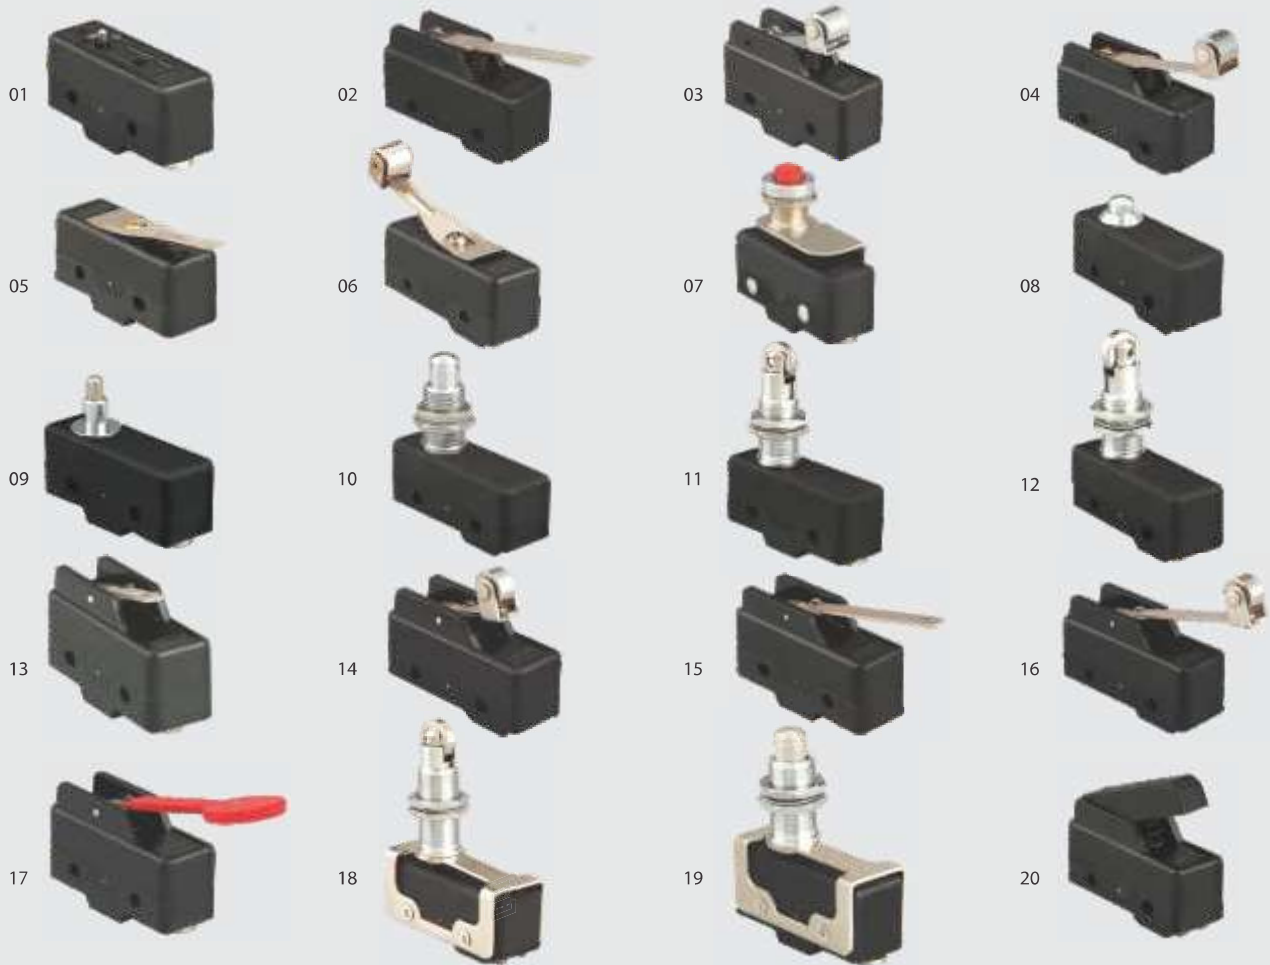

The **Foot Switches** are widely used for operating various machines. We have over 20 different models of foot switches of various types like small, medium, heavy duty types. These foot switches are of single, double & triple Paddle with guard, handle & made of material like MS, Aluminium & Polycarbonate.

The **Switch Mode Power Supply (SMPS)** are developed with all safety features keeping in mind the safety of our customers and their machines safety.

The **Safety Light Curtains** are developed as a safety product to keep man at a safe distance while the machines are operational in working environment.

we have manufactured and supplied above switches to private companies all over Industries and government body including Indian Railways for various applications like Power Presses, Drill Machines, Packaging Machines, Spot & Tag Welders, Conveyors, Electro & Biomedical Equipments and also used in circuits of machine like Textile, Medical and Automatic Production line.

B1 SERIES STANDARD MICRO SWITCHES

BMS-7

Features

- Compliant with IEC 60947-5-1
- Silver Contact
- Beryllium copper spring
- Highly Reliable

Design

BRISK Brand Micro Switches are single pole change over snap action switches featuring exceptional repeat accuracy and strict quality control with Beryllium Copper spring and silver contacts. Available in various actuators for versatile application.

SAFETY LIGHT CURTAIN SENSOR

BRISK®

BLC SERIES SAFETY LIGHT CURTAIN SENSOR

New

CE RoHS

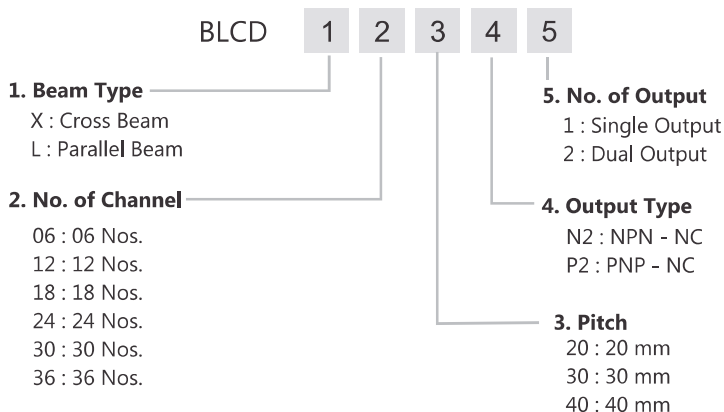

Features

- Complying with IEC 61496-1
- Directly works with PLCs / Controllers
- Output short circuit protection
- Reverse polarity protection
- Rugged design
- Highly Reliable
- Easy to Operate
- Light weight Aluminum body

Design

BRISK Brand Light Curtain Sensors are designed with both Crossed Beam and Parallel Beam options. Output are provided with LED indications. Well thought designed for ease of installation.

Ordering Code

Beam calculation (B)

For Parallel (L) : B = N

For Cross (X) : B = (N x 3) - 2

Where, N = No. of Channel

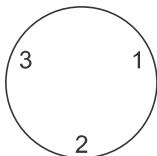

Order Code example : BLCD-L-0620-N2-1

Technical Specification

Power	: 9 to 30 VDC
Response time	: On to off:10-15m sec. Off to on: 50-100m sec.
Output	: PNP or NPN/NC
Output indications	: Through LEDs
Channel indications	: Led indication for each channel
No of beams	: 6, 12, 18, 24, 30, 36
Pitch offered	: 20, 30, 40 mm
Protected height	: 100mm-1500mm
Adjustable Range	: upto 3 meters (Higher range up to 5,10,15 meters available)
Operating Temperature	: - 10°C to 50°C
Cross section(W x D)	: 36 x 50 mm
